

THE HEATHER SOCIETY

acting as

INTERNATIONAL CULTIVAR REGISTRATION AUTHORITY

certifies that

***Erica carnea* ‘Saskia’**

– after Benjamin Edge’s daughter –

has been registered by

BENJAMIN EDGE
Faversham, Kent, UK.

REGISTRAR _____ DATE _____
on behalf of The Heather Society

Its characteristics at the time of registration were

Corolla rose-pink (H7), urn-shaped, to 5.5mm long, to 2.5mm across towards base; calyx the same colour but sepals darker toward base, 4mm long; February–April.

Foliage: mid-green; leaves 7 mm long × 1 mm broad.

Habit: low-growing, spreading, 20cm tall × 35cm across (pruned) after 3 years.

Origins: chance seedling (perhaps from *E. carnea* ‘Treasure Trove’)
found in 2007 at Forest Edge Nurseries by David Edge.

Saskia Edge is David Edge’s grand-daughter.

Cultivar registration number: E.2012:04
